(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity.)

The structure is located in the City of Vernon, the first "exclusively industrial" city in America. The building is industrial-Quonset hut in style. Research of available Sanborn Fire Insurance Maps indicates that this structure was originally constructed for use as a veneer & plywood warehouse. Today, the structure is owned by Euclid Steel Fabricating Co. Inc. and operated as Vernon Refrigerated.

The integrity of this property is high and it appears to be the only Quonset hut-style structure in use in the City of Vernon.
